J. P. Foster, of near town, slaughtered four of his pure Berkshire hogs last week, weighing, respectively 510, 480, 450, and 420, one of this lot gained 150 pounds in 50 days. These hogs were sold to parties in the county, and brought the net sum of near \$100. This shows what advantage is gained by having the best of stock. Mr. Foster has expended big money to get the fine grade of stock he has, but now he can continue to reap his reward from the investment. Would that every farmer would take the same interest in the improvement of his stock that Mr. Foster does.

James S. Field, who is clerking in the company's store at Hamilton mines, went into the store a short while after dark on last Sunday evening, and was followed by a large burly negro, who had been lying around the store for two or three days. Mr. Field had gotten to the rear part of the house, and was just going into the office, and on looking around he saw the negro following him. He turned and asked the negro what he wanted or what he was there for, and the negro put his hand in his hip-pocket, and was in the act of drawing a revolver, stating at the same time: "I will show you what I am here for!" But fortunately Field was too quick for the negro by instantly placing a revolver in his face, demanding him to throw up his hands. The negro threw up his hands and at the same time turned and began to run in the direction of the door. The negro made good his escape. Field fired three shots at him but failed to hit him. Field would have killed the negro in the house, but he made a mistake and picked up the wrong revolver. He thought he had a self-acting revolver but when he pulled down on the coon it failed to fire.

Withdrawn.
Mr. J. E. Williamson, attorney for the Henderson State Line Railroad Co., was in Hartford last week, and withdrew the proposition of the Henderson State Line. The ground for the withdrawal, was that the bonds would be illegal if voted on the same day as the Louisville, Hardinsburg & Western. What effect this will have on the road, cannot be foretold. President Rice says in a private letter, that he cannot build the road through Ohio county without help from her citizens. Be this as it may, the proposition is withdrawn, and the people of Buford, Hartford and Cromwell districts will not vote on the Henderson State Line proposition on February 27, 1889.

Oil and Gas.
Mr. W. L. Norton, the oil and gas inspector, mentioned by the Herald last week, is taking leases on lands in Ohio county. Mr. W. P. Maxwell accompanied him. They went up near Fordville, and will go from there on to the creek about the Falls. Mr. Norton looks the center of the oil and gas basin in this section about five or six miles north of Hartford. He says his company will make a complete and thorough inspection in Ohio county, and that they expect to find gas and oil both, at a depth of 1,800 feet, and in abundance.

The Literature Class.
The class in English Literature and History in Hartford College, were greeted last Friday night by a large audience in College Chapel, the occasion being the presentation of original orations by the class. Promptly at seven by the clock the class and teacher took positions on the rostrum. The first speaker of the evening, Miss Katie Combs, was introduced, who treated her subject, Two Poets, with a breadth of thought that showed much research. She was followed by L. M. Render in an oration both well prepared and well delivered, on the Great Commoner whose powerful example will form subject matter for school boys' orations. Miss Annie Crawford came next, subject, First Efforts, which was treated in a way that betokened the lessons of life learned in our first efforts were beneficial and valuable. The philosophy of life was to be seen in the success with the same firmness as we stand its burdens. G. T. Tinsley followed in a speech on Political Literature, which was a systematic review of English politics and its influence upon the Literature of England, as shown by the changes in English laws and government. "Mens Lives are Chains of Chances," was the subject of an oration by Miss Mary Render. The subject was one suggestive of much thought and the young lady brought her oration up to the subject. The nobility in life and the value of opportunity were dwelt upon. Miss Sophia Werner came next, subject, English Catholics and the antagonisms it brought about were treated historically by the young lady, who showed familiarity with that part of the world's history.

Residence Burned.
Last Wednesday morning the elegant residence of Wm. G. Tiford, near Cromwell, was burned to the ground. The house was recently constructed at a cost of \$6,000, was built in the most modern style, and was probably the finest country residence in the county. The property was insured for \$5,000, and the remainder will be a total loss.

Religious.
J. M. Evans, J. H. Hopper, Evangelists, and M. B. Porter, Pastor of the Methodist Church, will deliver a series of meetings at the McHenry school house, on Saturday evening, Feb. 2nd, and continue for several days. The public cordially invited to attend.
Rheumatism.
Is undoubtedly caused by lactic acid in the blood. This acid attacks the fibrousness, and causes the pains and aches in back, shoulders, knees, ankles, hips and wrists. Thousands of people have found in Hood's Sarsaparilla a positive cure for rheumatism. This medicine, by its purifying action, neutralizes the acidity of the blood, and also builds up and strengthens the whole body.

A Christian and Philanthropist.
We heard of a man who stole the copper from a dead man's eyes, and of another worthy who pastured a goat on his grandmother's grave. But either of these men was a gentleman and a Christian philanthropist when compared with the man who will stop a paper on account of its views on a certain question, and then borrow the paper of his neighbor and friends.

ROCKFORD.

January 28, 1889.—A young man named White, was arrested here Friday and taken before Judge Reid on a charge of stealing a gun coat from A. W. Wakefield at McHenry. On examination, he was held for further trial and ordered to the Hartford jail. Marshal Howard arranged to take him through in a buggy, and started at 8 o'clock. When they reached a point about three miles on the way, Howard stopped to put on his overcoat when the prisoner made a break for liberty. Darkness prevented on one more incident to his experience.

Mr. W. H. Wiley & Sons sold a raft of logs in Evansville a few days ago, and after receiving the money, one of his sons went into a shoe store to make some purchases, and as he was about paying for a pair of shoes, a sneak-thief snatched his pocket-book containing \$14 and ran out at a back door, closing it after him. POINT PLEASANT.
I have been absent from your paper for some time and will now try and give you the news of the neighborhood.
We are now having some very wet weather, but owing to the amount of beautiful weather which we have had until the present we cannot complain.

The protracted meeting at this place is being carried on with great interest. People generally are busy stirring up tobacco. Some have sold their crops at 4 cents, others are selling from 4 to 4 1/2 cents ordinary size gross; sales are slow at present.

Mrs. W. A. Taylor is very sick, but is resting better at last account.
Rev. D. J. R. Maddox, after some several days faithful work in the meeting at this place, returned home yesterday.

Bennett & Co. have moved their mill to the city, and are ready to saw and grind again.
Miss Mollie James, who has been visiting her sister, Mrs. Kinchloe, in Mulheisen county, returned Monday. Some are beginning to burn tobacco buds and making preparations for a good crop this year.

The school at West Point closed Saturday with several present. Prof. Hagerman, who is teaching at his residence, is progressing nicely with his little school.

Wishing the Herald many happy readers and much success, I close to appear in the near future.
Very respectfully,

RHEUMATISM AND NEURALGIA

These twin diseases cause untold suffering. Doctors admit that they are difficult to cure—so do their patients. Paine's Celery Compound has permanently cured the worst cases of rheumatism and neuralgia—no say these who have used it.

"Having been troubled with rheumatism at the knee and foot for five years, I was almost unable to get around, and was very often confined to my bed for weeks at a time. I used only one bottle of Paine's Celery Compound, and was perfectly cured. I can now jump around and feel as lively as a boy." FRANK CAMPBELL, Rosine, Ky.

Paine's Celery Compound has performed many other cures as marvelous as these—coughs of long standing, whooping cough, and all other lung troubles. It does not disturb the stomach, and is entirely vegetable. A child can take it. What's the use of suffering longer with rheumatism or neuralgia?
